

The attachment is a map to Jane's. I am pasting the newsletter. Hope it works.

Chimneyville Weavers and Spinners

News and Notes

August 10, 2008

A note from your president:

July 30, 2008

Dear Weavers,

Well as the saying goes, where has the time gone, where has the summer gone, I can hardly wait until fall arrives.

For a more positive statement, it has been a great summer, lots of good vegetables, visits with family and friends, some weaving, some knitting, some just sitting and relaxing. Now I can start looking forward to seeing all of you at Jane Dollar's on Saturday, August 16th, for a fun day of talking, eating and planning for the Craft Center's Christmas Tree decorations. Come with your samples, ideas, patterns, extra yarn, etc. so we can get off to a great start on this project.

Want to thank Eva Joan H. for sending little tidbits out over the summer. Thanks to Marcy Petrini for news about the great ball game in Tampa, way to go. Sharon Williams, your last message was so full of information, that I had to print it so I would not miss anything.

How about a report from all of you Convergence people? Those of us who missed, need to know just what we missed!!!!

Be sure and read all the news letter because there is some important information to be enclosed, want give this away, so you will have to read.

See you in Starkville,

Sandra Mayo

And now directions to Jane's house to go along with the map that I am forwarding.

On the map, the heavy line follows the best route to the house from Hwy 25. The new 4 lane is west of old 25 just before you reach Starkville. At the turn off 25 to go east, there is a sign for the MS HORSE PARK in brown, like for historical markers. There will be a short section of gravel road (Longview Rd.) before you cross old 25. Keep east across old 25 - now Poorhouse Rd, still gravel - the last half of this section has been paved. I think the map says New Prospect Rd. ??? It's really Poorhouse Rd. You will cross S. Montgomery St; continue east on Poor house Rd. You will pass horse park. When Poorhouse Rd. joins Oktoc Rd., continue south. Turn east off Oktoc onto Robinson Rd. There will be a sign for East Oktibbeha High School and one for Pleasant Grove M.B. Church. It's right before the Oktoc community center. If you get to the volunteer fire station, you've gone too far. Stay on Robinson Rd. until Moor High Rd. splits off. Just STAY

ON THE PAVED PART. Moor High will dead end into Crawford Rd. Turn right, go about 0.3 mi and turn left onto Whitehead Rd. which no longer has a road sign due to thieving kids. I'll try to have balloons up. Go to the end of the road and take a left thru the gate. Follow the drive up to the house (0.5 mi).

Now that I've confused everything, if anyone wants to spend the night, they're welcome, they just need to bring an air mattress and sleeping bag. Doug will go to the old house and stay with our son. Remember, not many inside walls. But we DO have bathroom doors and steps onto the front porch now!

If you have any questions, e-mail me. In the meantime, I'll be cleaning house.....

Jane

From Sharon on the upcoming ornaments and Guided Inspirations: Please remind everyone coming to Jane's to bring a sample of the Christmas Ornament for Chimneyville. Also, The name of the Guided Inspiration exhibit in February is "Fortune's Drawn".

Sorry that the newsletter is mostly cut and paste, but school has begun, we are still moving on weekends and getting the house in order to sell. I did pull some links for ornaments, and will add them.
